Mountaingate, located in Reno, Nevada is being developed as a gated community with luxurious homes in a tranquil, picturesque setting. Stunning views inspire Mediterranean; Spanish Colonial and California style housing that creates a delicate balance of contemporary design and classic detail

Mountaingate plans include walking trails, wide-open spaces, a dramatic gated entry, and breathtaking scenery. Mountaingate captures the best of two very different worlds - one that surrounds modern conveniences and everyday comforts, and another that remains firmly rooted in the Old World.

Virginia Highlands is also a master planned community in the planning stages, which will integrate open space, public/institutional infrastructure, public parks and trails, recreational centers, single family detached, single family attached, multi-family homes, community retail centers, and commercial/office space.
